

Bund Flooring with 130 ltr sump – BCBF2

Description

The BCBF2 floor unit can be used alone to store up to 4 x 100ltr drums or linked with additional units to create a larger workstation.

All our bund flooring is manufactured from polyethylene for broad range chemical compatibility and this model features a removable plastic grid to allow you to re-claim and clean-up liquids easily.

An optional ramp for loading and unloading is available and if joining units together a joining strip cover can be purchased for a superior finish.
