

Bund Flooring with 300 ltr sump – BCBF4

Description

The BCBF4 bund floor unit can be used alone to store up to 4 x 205ltr drums or combined with others sections to create a larger workstation.

All our bund flooring is manufactured from polyethylene for broad range chemical compatibility and features a removable plastic grid to allow you to re-claim and clean-up liquids easily.

An optional ramp for loading and unloading is available and if joining units together a joint strip cover, purchased separately provides an excellent finish.
