

Bund Flooring with In-Line 300 ltr sump – BCBF4S

Description

An excellent bunding solution – the BCBF4S flooring unit can be used to store up to 4 x 205ltr drums or combined with other units to create a larger workstation.

All our bund flooring is manufactured from polyethylene for broad range chemical compatibility and features a removable plastic grid to allow you to re-claim and clean-up liquids easily.

An optional ramp for loading and unloading is available and if joining units together a joining strip cover will provide an excellent finish.
