

Maxi Box Bespoke foldable container system – BCMXP1000

Description

Pallet Spec

The Maxi Box system is a fully bespoke system – for example most recently we have created for our clients 1000x2030, 800x1820, 800x2300, 1200x1600 1200x2400 and all measurements are in mm.

We also have the following standard sizes: [800x1750](#), [800x2000](#), [800x2400](#) and [1000x1540](#).

These maxi box pallets are made from Recycled PP, anthracite and are cut and joined through metal parts.

The lids are made from recycled PP, anthracite and are cut and joined through metal plates and rivets.

The extruded PP sleeves are produced as usual to the requested height.

All boxes are made to order – please enquire using the orange link above stating your specification requirements.

The sleeve is made with a rimmed contour to prevent injuries and on request can be fitted to the pallet and the lid with 8 hooks.

The upper part of the lid is made with a special structure to allow the stacking of the box.
